Dear [REDACTED]

Many thanks for your prompt response to our recent request for maps of Belgium and The Netherlands.

Since the locus of activity to take place during our upcoming US Army logistical exercise will be the Kingdom of Belgium, do you think you might be in a position to forward us six [6] more copies of said CIA map? The one from The Netherlands that we now have will more than suffice for our present needs.

Again, many thanks for your cooperation with us in this matter.

Sincerely yours,

*Arnold Albert*
